ACKNOWLEDGEMENT

I would like to express my profound gratitude to **Professor Dr. Ashok Tejankar, Principal** of Deogiri College, Chhatrapati Sambhajanagar, and **Mr. M. A. Jadhav, Head**, Department of Biotechnology and Bioinformatics, Deogiri College, Chhatrapati Sambhajanagar for their contributions to the completion of my project titled “In silico 3d structure predication and physiochemical characterization of beta-amyloid protein”.

I would like to express my special thanks to our mentor Mr./Ms. __ **MS. Shivani Dhadge** for his/her time and efforts he/she provided throughout the year. Your useful advice and suggestions were really helpful to me during the project’s completion. In this aspect, I am eternally grateful to you.

We especially thanks to “*Dipak Chavan*” for their valuable guidance. This project could not complete without help of their constant encouragement, hints, suggestion guidance. This project could not complete without help of their constant encouragement, hints, suggestion guidance & help, we would like to thanks them for their precious support, which proved immense importance to this project.

I would like to acknowledge that this project was completed entirely by me and not by someone else.

We are also very thankful to the Lab Assistance and all My Friends for their co-operation and inspiration. We are also thankful to all of them who directly or indirectly help us for development of this project

Karan Mhaske
